Solicitor-General Says Scizure Was Prompted by Needs of War Time.

WARRINGTON, March 7 .- Charles Hughes, appearing to-day before the Supreme Court as counsel for the Commersial Cable and Commercial Pacific Cable companies, charged that Postmaster-General Burleson by taking control of the marine cable systems five days after the signing of the armistice had misused the powers conferred by a joint Congressional resolution, had given the resolution an interpretation "foreign to the intent of Congress," and had as an ulterior motive "the forcing of Government ownership of the cables."

The accusations of Mr. Hughes were generally denied by Solicitor-General King, who presented the case of the Government asking that the court sus tain the decrees of lower courts dismissing injunction proceedings brought by the two cable companies to prevent the Postmaster-General from taking over their cables and merging them with those of the Western Union Telegraph Com-

Mr. King argued. He pointed to the turning over to the State Department of an entire wire to Europe, the fact that American troops are now on German soil and that Germany and Austria are still at enmity with this country as suf-ficient proof that Government supervision is needed.
